

Ma Petite Planète

# ECOLOGICAL CHALLENGES

## we achieved on week N°2

To see more Flash QRcode

### CHALLENGE N°1 - ANTI-WASTE

Let's finish our plates 😊

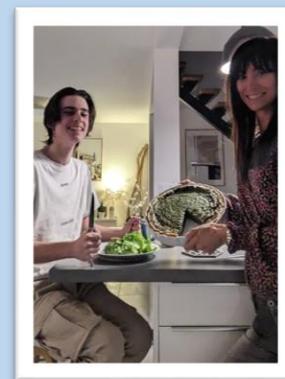

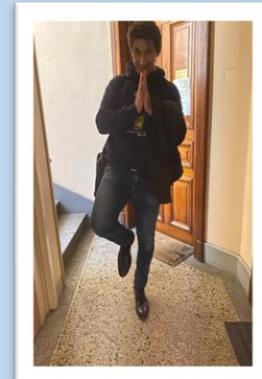

Why this challenge?

Aim for an empty plate or put it in a doggy bag for later!

1/3 of the food produced on the planet is thrown away or lost every year! The production of these products required water 💧, resources from the Earth 🌿 and time from the person who took Care of it. It would be a shame if it ended up in the bin!

### CHALLENGE N° 5- GET AN ADULT INVOLVED

Why this challenge?

Protecting the environment is everyone's business, so invite an adult to do a MPP challenge: a teacher who doesn't play, a supervisor, a canteen worker? The choice is yours 😊

### CHALLENGE N°17 - DO-IT-YOURSELFERS

Why this challenge?

Besides the pride of giving a second life to an object, your gesture is very beneficial for the Planet 🌍 Too often, we are used to throw away an object as soon as it is broken, yet this gesture is very bad for the environment because it involves the manufacture of millions of new objects every year.

And lots of more tree hugs
